

# 第2次久米島町総合計画

基本構想

2016 - 2025

夢  
つむぐ  
島

The background features a faint, light-colored illustration of a community. It shows several stylized human figures of various ages and genders, some holding hands, suggesting a sense of unity and community. Below the figures, there is a simple representation of a boat or a large vessel, possibly a fishing boat, with a curved hull. The overall style is clean and modern, with a focus on human elements and community values.
